Rygel

Flush-Out For Cleaning and Decontamination of Spraying Equipment

Active Constituents: 40 g/L AVAILABLE CHLORINE
150 g/L POTASSIUM HYDROXIDE

3-Way Action

- **Alkaline Agent – Decontaminates most pesticide residues**
- **Chlorine – Neutralises Sulfonyl Urea herbicide residues**
- **Removes scale deposits**

Pack Sizes: 20L

GENERAL INSTRUCTIONS

Rygel Flush-Out is a mixture of chlorine, a caustic cleaning agent and a highly effective wetting agent, which can be used to cleanout spraying equipment and decontaminates most pesticide residues. Treatment with Flush-Out should be carried out when changing between pesticide types and for end of season cleanup. Prior to commencement of spraying season spray equipment should be cleaned with Flush-out to remove any scale deposits or residues present. After application of sulfonyl urea herbicides, spray equipment should be decontaminated as recommended on sulfonyl-urea labels with chlorine based solution such as Rygel Flush-Out.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers and waterways with the chemical or used container.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN

Store in the closed, original container in a well-ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no

landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Wear cotton overalls, PVC gloves and disposable face mask. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Ph: 13 11 26). If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet, which is available from the supplier.

CONDITIONS OF SALE

The use of Rygel Flush-Out being beyond the control of the manufacturer, no warranty expressed or implied is given by Rygel Australia Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Rygel Australia Pty Ltd accepts with no responsibility for any consequences whatsoever resulting from the use of this product.

In an Emergency Dial 000 Police or Fire Brigade

DIRECTIONS FOR USE

Situation	Use Rate	Critical Comments
Spray tanks, hoses, lines and all associated spray equipment	1 L per 1000 L	Clean spray equipment immediately after spraying is completed. Drain the tank, then flush tank, boom and hoses with clean water for a minimum of 10 minutes. Half fill with clean water and begin agitation. Slowly add Flush-Out and top up with water. Agitate vigorously for 15 minutes and recirculate. Use the hand lance or return hose to clean top of tank and around the filter basket. Open spray booms and spray out. Repeat procedure above. Re-fill with water, agitate for 5 minutes and recirculate before spraying out.
When sprayer is to be re-used immediately		
Persistent chemicals or end of season cleanout	3 L per 1000 L	Use same procedure as outlined above
Removal of build up residues		
Orchard sprayers or Aircraft		
Nozzles and screens / filters	100 mL per 100 L	Remove and clean separately. Immerse in solution of Flush-out and allow to stand for 30 minutes. Remove any residues with wire brush. Rinse in clean water.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
